

Gormanism vs. Clevelandism.

Special attention has been called to the Maryland state Democratic convention by frequent statements in the cuckoo organs that Gorman had the right of his life on hand and was in a fair way to receive a severe rebuke from the Administration forces. It was a contest between the Federal and State machines to determine whether Boss Gorman should still remain supreme or be displaced by Boss Cleveland. It was all settled in one very short round with victory perching on Gorman's banner. In fact the Cleveland forces were not in the contest so far as any practical result was concerned. It being conceded by the leading Democratic papers in New York that Gorman ran the convention from start to finish.

Some perfunctory resolutions endorsing the National and State Administration were adopted as a mere matter of form, but because the convention failed to have Cleveland in office the Boston Herald today severely criticizes the result. Gorman showed heavily before the Cleveland element of the party. This of itself is funny enough, but when as evidence of the power of the Cleveland element the Herald states that the convention declared that the present tariff was the best the country has had for the last twenty years, it is a little funny. The present tariff was enacted through Congress by Gorman and President Cleveland who informed the people in a letter to Chairman Wilson that its adoption would mean "party purity and party dishonor." The Herald seems to be badly rattled.

Tariff for Deficit Only.

Government receipts for the month just ended, the first of the fiscal year, are only one million two hundred and ten thousand one hundred and ninety-six dollars short of the expenditure—see New York Herald.

Finding it impossible to conceal the fact that the new tariff law is a tariff for deficit only, instead of for revenue, the Administration is trying to lead the public to believe that it is a tariff for revenue. In the treasury statement on the ground that the deficit is only a few hundred thousand dollars over the one million mark for the first month of the present fiscal year. This is at best a half-hearted explanation and it strongly implies that the people really have reason to be thankful because the deficit is not larger under the Cleveland regime. But this attempt to sugar coat the fact that the Administration is constantly paying out more than it receives and is therefore sinking the country deeper and deeper in debt is simply labor lost. This show-up, bad as it is, does not begin to tell the whole story. Even the Herald is forced to admit that the "deficit has been brought down to this comparatively small figure by very paltry reductions in the expenditures for some days past," and that "of course the money withheld in this way must be paid later on."

In other words the treasury statements do not honestly show the condition of government finances. The accounts are being constantly manipulated so as to create a false impression in the public mind as to the effect of the two-year tariff. Indeed if any national bank in the country was found using the same tactics now in vogue in the Treasury Department its doors would be closed by the Comptroller of the Currency as an institution unworthy the trust of the people. Yet this juggling of figures from month after month by this so-called "honest money" Administration, but the game of deception must eventually recoil on the party responsible for it because, as the Herald admits, the money thus held back for the purpose of meeting false balances will have to be paid sooner or later.

The excess of expenditures over receipts for July has amounted to about \$11,000,000 more than it did in July, 1893, and \$2,500,000 more than it did in July, 1891, despite the fact that the total expenditures for this month have amounted to only \$18,477,000, whereas in July, 1891, the total was \$17,990,000 larger than in July, 1891. In July, 1893, the customs receipts amounted to round figures to \$14,810,000, and in July, 1891, to \$14,810,000—a difference of \$800,000 in favor of the "prohibitory tariff" of 1891, as compared with the "reform revenue tariff" of 1891. In July, 1891, importations, and consequently the revenue from customs, were affected by the unsettled state of that troubled region in Congress, and the customs receipts amounted to only \$9,427,000.

Internal revenue receipts in July, 1893, amounted to \$11,000,000, which was about \$1,700,000 in excess of the receipts of July, 1891. Receipts from the same source in July, 1894, were substantially larger, the total amounting to \$25,300,000. There was a considerable increase in the receipts from tobacco duties between 1891 and 1893, the total for the month amounting to \$5,300,000, as compared with \$1,147,713 in July, 1891, and \$1,624,679 for July, 1893. There has been a steady increase in the July expenditures on civil and miscellaneous accounts in the last three years, and on the other hand there has been an equally steady decrease in the expenditures on account of pensions. In July, 1893, the civil and miscellaneous expenditures amounted to \$17,477,000, in July, 1894, to \$18,000,000, and in July, 1895, to \$18,000,000—an increase of \$17,700,000 between 1893 and 1895. The decrease in the expenditures on account of pensions has been about as steady and even greater. In July, 1893, the total amount in round figures to \$14,758,000, in July, 1894, to \$12,900,000, and in July, 1895, to only \$12,700,000—a decrease of more than \$2,000,000 between 1893 and 1895, despite the fact that the pensioners of the Mexican War had been increased one-third, and the further fact that the names of the surviving heroes of a number of Indian wars and "squaw" wars had been added to the pension roll by Democratic legislation, which President Cleveland never had a desire to veto.

According to the statement issued the last day of the month, the Treasury held an "available cash balance," including the gold reserve, which now amounts to \$107,299,000, of \$103,573,000. Deducting from this the \$100,000,000 required by law to be kept to maintain specie payments and the parity of gold and silver and other unavailable assets, fractional silver coin, fractional currency, minor coin and bonds and notes, paid an actual net balance of about \$8,000,000, which is \$3,000,000 less than the Treasury held three months ago.

Those terrible bloodthirsty negroes in the South have been at it again. This time they started a "riot" at Brookside, Ala., and as rioters always do, redressed to the woods a mile or two away and "poored a murderous mob into the whites." Result: Negroes killed 4; whites killed 0. Several of the "rioters" went further back into the dense woods, with the intention of killing more whites, but they were captured there and only saved from lynching by the arrival of the sheriff with a large posse. The negro "rioters" were then arrested and "robbed by the next report will be an account of their death by lynching."

THE FASHION

"Speaking of our Mail Order Department," we don't know how many orders we have received since Jan. 1, 1895, whether it's 10,999 or 999, but we do away every order received and we challenge any concern in this city to compare results. Further, we challenge any concern in this city to compare their American Express receipt books with ours, showing the number of parcels sent to all parts of the State. Our orders on file and our Express receipt books, since that date, are open for public inspection. One ounce of fact is worth a barrel of wind.

Why Do Practically All the Ladies Buy Their Dress Goods and Linings of WOOD & EWER? BECAUSE IT'S "FASHION."

YOU KNOW.

WE ARE NOT OBLIGED to ask our patrons to "make themselves at home." They always feel so at "The Fashion."

O. R. F. L. A. D.

"IT'S STILL THERE," and locates the best place in Bangor to do your shopping. Later and better goods, lower prices, best service and most prompt attention of any store in town.

TRY IT AND SEE.

Compare prices advertised below, item for item, with Thursday's Quotations. Examine and compare the goods. THE FASHION WILL GO YOU ONE BETTER FACTS vs. S. W. N. D.

The above heading was not copied from the "Dry Goods Economist" of July 13, and is, therefore, original.

VERBATIM COPY OF A SAMPLE ADVERTISEMENT IN THE "DRY GOODS ECONOMIST" OF JULY 13.

"Good-Bye Sale to all the Spring and Summer Goods. The story in a nut shell. Instead of having a closing out sale in September, we put September prices on now when Summer Goods are selling; when there is yet ahead two or three months of service."

CARD. As stated in a recent advertisement, no matter what prices others may quote, we'll go them one better. We propose to carry out that statement to the letter. Besides the fact that every line of goods we are handling today, we are showing the latest, the cleanest and most up to date merchandise of any store in town, simply from the fact that we have no old truck or trash to get rid of, OUR PRICES are a continual source of wonder to our patrons, and consternation to our competitors. As showing how far this feeling has extended with our competitors, we will state the statement can easily be proven, that certain disgruntled competitors, rendered desperate by the remarkable values we were offering, got together and tried to form a combination agreeing to BOYCOTT any concern that sold us goods. WHY? Simply because we were selling goods for less than they paid for them and making a good profit at that. They attempted to carry out this little scheme, but every concern for the consequences they approached upon the subject sold them plainly they proposed to sell whoever they pleased, and the project fell through. THE DAY OF THE BOYCOTT IS PAST. Failing in this, they tried to account for the differences in their prices and ours by attempting to discredit the quality of our goods; this also, proved a boomerang, for the people do their own thinking nowadays, and use their own judgment and whenever this statement was made, they thought they would "see for themselves." They did, with the result that our goods were found to be not only as good but better and that our prices were much less. Consequently it was the best concern severely alone, but we trust we may be mistaken in this idea, and that they will still continue to give us all the free advertising they possibly can.

Compare prices advertised below, item for item, with Thursday's Quotations. Examine and compare the goods. We will GUARANTEE the goods to be AT LEAST EQUAL in EVERY RESPECT, and the PRICES 15 to 25 per cent. LESS. With exception of Garments, the sale of which, at prices quoted, will be final, we will, during this sale, REFUND THE MONEY for any goods bought that are not more than satisfactory when the customer sees them at home.

## For Summer Outings.

The DAILY WENT will be sent to persons going out of town for any period of time, at a charge of 15 cents per week, postage paid.

The private car "Idler" passed through the city Friday on its way to New York from Bar Harbor with a party of out-of-towners on board.

Webster Henderson's barn was burned last week at South Presque Isle with all his hay. It is supposed to have been caused by a tramp.

About 300,000 fish will be distributed among various lakes and streams next October by the fish and game commissioners from the hatcheries.

Friday evening the aldermen gave a hearing on the proposition of the Driggs Telephone company to lay conduits and underground wires in the streets of this city.

A party of fishermen from Boston and New York were in the city Friday on their way to Ketchikan from Forts where they will pass some time at the Silver Lake Hotel.

A number of the teachers in the Bangor schools are clearing various summer schools and will undoubtedly be profited by what is offered there in the way of instruction.

A fine photograph of Rev. J. M. Frost, of the First Methodist church, has been hung in the vestry of the church. It was purchased by contributions from the members of the parish.

Fish and Game Commissioners T. H. Wentworth, of this city; H. O. Stanley, of Dixfield; and C. E. Oakes, of Caribou, will go to Sebasticus probably next week to get a hearing on a petition for a new fish hatchery there.

James A. Wood was before Felix F. Adams, judge of the Municipal Court yesterday on the charge of stealing some pocket mirrors from the basket of an Armenian woman vender, and was given thirty days in jail. He was also up for drunkenness and got another thirty day sentence.

Algonquin Lodge, Knights of Pythias, of Portland, will have an excursion to Fort Knappton on Friday, August 9th, and will return on Saturday, August 10th. The excursion will be for the purpose of raising money for the lodge.

A large number will probably go on the excursion to Old Orchard beach next Sunday from Bangor and vicinity and a fine time is anticipated. It will be the only excursion from this city to Old Orchard this summer. Six hours will be given to the beach and six hours to the city. The train will arrive in this city on the return at 11:30 a. m.

Wednesday a freight train made the depot at Webster's plantation looked over the east siding to leave a race horse. Thinking everything all right, the train proceeded on its journey and shortly after struck a box car, which was pushed partially on the main track. The car was badly splintered and the steps knocked off the engine. Not much damage was done.

General Passenger Agent Houghton, of the Bangor & Aroostook railroad, has arranged to put a special trip ticket at very low rates for the Eastern Maine State Fair in this city beginning August 22d. They will be good for a return up to and including August 25th. Crowds of people from Northern Maine will undoubtedly come down over the B. & A. to the big exhibition.

The Bangor Bazaar gave another very pleasing concert last evening in Center Park and the usual very large number of auditors. The program was arranged by Director R. B. Hall, was very finely carried out the selections being rendered with much spirit and harmony. Prof. Hall was also heard to excellent advantage. The concert was enjoyable throughout.

Joseph McDonald was before the Municipal Court yesterday for assault upon Fred McDonald and was fined \$10 and costs, which he paid. The evidence was that he had hit Fred McDonald on the nose with a stick and had thrown a brick at him.

Manager F. A. Owen of the Opera House has just closed an eight weeks' trip as manager of the E. M. Hall & Donnelly minstrel company at Boothbay. The trip, which was only through Maine, has been a successful one. A novel feature was the method of transportation, the company not getting a railroad train for three days, but being conveyed by steamboat and to its headquarters. The shows were well attended everywhere.

Yesterday morning as the inbound Hucksport train was passing through the Exchange street station, a man with a box in his hand ran off to board it. The box of the rail of one of the cars as the train was moving at quite a rapid rate and was thrown from his feet and under the car. The man was dragged along for several yards and lay in front of the wheels, but finally managed to get himself up and jumped off to the ground. It was a narrow escape.

The annual encampment of the Commandery-in-Chief of the Sons of Veterans will be held at Kew-Forest, Tenn., Sept. 16, 17, 18 and 19, inclusive. The annual encampment of the Grand Army will be held at Louisville the previous week and many of the veterans will take in both conventions. The executive committee for this battlefield encampment report good progress and is sparing no pains to make the meeting one of the largest and most successful in the history of the organization. In view of this fact Commander-in-Chief Bandy has secured the headquarters in City Hall and his headquarters will be located at rooms 403 and 405 Galt House. Games and various programs during quarters during the Louisville encampment will please communicate with F. H. Ninkirk, 333 Seventh street, Louisville, chairman of the S. V. committee, stating the probable number who will attend, whether uniformed, etc.

Beautiful Photographs. We have received from the Sprague & Hathaway Co. of West Somerville, Mass., some very handsome photographic views of the Polar Spring House, including landscapes in the vicinity, including the dedication of the Maine State Building on the first of July last.

Municipal Court. Joseph McDonald, assault and battery, \$10 and costs. Paid. James Wood, larceny, 30 days in jail for drunkenness, 30 days in jail. John Deley, drunkenness, 30 days in jail. Thomas Murphy, drunkenness, 30 days in jail. Joseph Porter, assault and battery, 30 days in jail. Fined.

MOORE'S FILLS FOR Liver, Biliousness, Indigestion, Headache, Stomach Trouble, All Disorders of the Digestive System. A Pleasant Laxative. All Druggists.

## BANGORS OUTLAW. The Visitors and Lead Them a Merry Chase—Wentworth's Story of Only One in the Line.

Again the Bangors gave the Portland a defeat upon which to meditate on Friday, when the score this time was 10 to 7 and one of Portland's star twirlers, young Woods, a nice pleasant looking fellow with an effervescent bang, was an exploded phenomenon. The home team took kindly to it, beginning with the second inning, and no time did they have much difficulty in securing his when they were needed.

Wheeler went in to pitch for Bangor. He was not feeling well for a time and he was touched up for three hits in the last, two in the second and one in the 4th. Then he stopped, likewise the scoring of the visitors. Wheeler made a great record for himself. In the last 5 innings not a single hit was made of him, not a man reached first base and he struck out two men.

Bayes caught yesterday for the first time the injury to his hand and was warmly greeted by the crowd, loud applause being given him. He was in good form, his only slip being a wild throw to second to catch a runner.

Another was a good hit, allowing the latter to score. It was a good trick if it had connected all right but it high throw spoiled it.

There was a good deal of excitement and interest about the game. The home team was very much pleased with the game. The visitors were very much pleased with the game.

The game terminated fortunately for some of the Bangor players who would have been likely to have been injured by the crowd. The game was very much enjoyed by all.

The visitors scored three times on bad errors in the first inning, once on a single and once on a double. The home team scored once on a single and once on a double.

The game was very much enjoyed by all. The home team was very much pleased with the game. The visitors were very much pleased with the game.

## Officers After the Would-be Assassins.

Who Has a Strongly Fortified Camp at Cheesbrook.

Fish and Game Commissioner T. H. Wentworth yesterday afternoon received the following telegram from Commissioner C. E. Oakes, regarding Game Warden E. O. Collins who was recently shot on the Allegash by the Moosehead Lake guide named Morris:

To T. H. Wentworth, Bangor, Me.: Collins is doing badly thus far. Think he has a good chance for recovery.

CHARLES E. OAKS, Commissioner, Wentworth took prompt action after the news of the shooting of the game warden arrived in this city.

He immediately telegraphed to Commissioner C. E. Oakes, of Portland, for a report on the condition of the warden.

He also telegraphed to Commissioner C. E. Oakes, of Portland, for a report on the condition of the warden.

He also telegraphed to Commissioner C. E. Oakes, of Portland, for a report on the condition of the warden.

He also telegraphed to Commissioner C. E. Oakes, of Portland, for a report on the condition of the warden.

He also telegraphed to Commissioner C. E. Oakes, of Portland, for a report on the condition of the warden.

## Ladies Wins the 2-35 Class and Canille Matched Race With Orono Boy.

The second day's races at Orono yesterday were well attended and the various dashes between the trotters were exciting, with good trotting all the way through, from start to finish.

In the 2-35 class there were twelve starters and the race furnished plenty of excitement in one way and another. It started this race an error was made by the judges owing to the large field of horses and the dust which blew down the track hiding some of them from the view of the judges.

Nine horses were given the word "go" and the race was on. The Canille boy, while the other three were up the stretch in the dust. When the error was discovered the judges decided to waive distance in that heat and allow the balance of the field to start again. A protest was entered against allowing them to start, but the judges held to their decision and the race was run.

**KNOCKED OFF THE CAR.**  
Carelessness by a Passenger Causes an Accident on the Bangor, Orono & Oldtown Electric Railway.  
Among the passengers yesterday on a car of the Bangor, Orono & Oldtown electric railway were Miles Cavanaugh, a city clerk, and a Hobrow peddler named A. C. Cavanaugh. The latter was engaged in selling handkerchiefs to East Market square.

When the car was a short distance this side of Venable Cavanaugh, who is informed, was standing on the foot-board, swung out at arm's length several times and was warned by the conductor. When he swung out again he was struck on the head by one of the railway poles at the side of the road and knocked heavily to the ground.

As he fell off the car, Cavanaugh, who was thrown to the ground, it was thought that the men were badly injured and the patrol wagon in this city was sent for. Officers Bowen and Barnes went to the spot, but the two men being able to take care of themselves and refusing to take a ride in the patrol, they returned to their station.

Cavanaugh's head was cut and bruised by its contact with the post and he was taken to a physician, bandaged. His father went to Orono with a carriage and brought him back to his home on Third street. Cavanaugh's leg was lamed by his fall but the injury was not so serious as it appeared. He came down on the next car.

**AMUSEMENTS.**  
**Rockwell's Pavilion Theatre**  
At Rockwell's Pavilion Theatre last evening, Master and Miss Cavanaugh were presented before a large and well-attended audience. The play was "The Millionaire," and the performance was a success.

**Largest Steamer Ever Built in Maine**
